

Transforming IT

Mission Ready

Established in 1964, Emtec Federal is a systems integrator that provides IT consulting, infrastructure services, and application development to the Federal Government. Our market-leading, value-based management methods, coupled with best-in-class IT, consulting, and development services, address a wide range of specific client needs, as well as support broader IT transformation initiatives. Emtec Federal's service capabilities span the United States and US installations around the globe.

Emtec Federal at a Glance...

- Over 45 years IT experience
- Ranked as a Top100 IT contractor for over 15 years
- Top Secret Clearance
- 50,000 sq/ft of warehouses in three locations
- Agency Specific Accredited Secure Compartmental Area
- ISO 9001:2008 Certified

- ◆ Unified communications (VoIP) planning, design, and business analysis
- ◆ Virtualization—server and virtual desktop infrastructure (VDI)
- ◆ Windows/Unix/Linux systems administration
- ◆ Wireless design, secure architectures, survey, and deployment

An Investment in Expertise

Our company's success is due, in large part, to our engineers' ability to identify the best solution for a client's need. As a result, Emtec Federal requires its engineers to continuously expand their skill sets and to maintain certifications. Through this continuous investment in training and Emtec Federal's commitment to maintaining certifications, we are able to provide the caliber of support that our clients require.

Emtec Federal builds Green Data Centers to help Federal IT departments reduce energy consumption with smaller and more efficient operations for an environmentally sustainable future.

Information Management Services:

- ◆ Database/data warehouse design and development
- ◆ Data warehouse operations and maintenance
- ◆ Data de-duplication, back-up, and recovery
- ◆ Data mining services
- ◆ Disaster recovery/COOP
- ◆ Information discovery - unstructured and structured data
- ◆ Storage, server, and desktop virtualization
