

SERVICE OVERVIEW

Packaged Application Services

Enterprise Performance Management

ABOUT EMTEC[®]

Emtec is the right size provider of technology-empowered business solutions for world-class organizations. Our local offices, highly-skilled associates, and global delivery capabilities ensure the accessibility and scale to align your technology solutions with your business needs. Our collective focus is to continue to build clients for life: long-term enterprise relationships that deliver rapid, meaningful, and lasting business value.

PACKAGED APPLICATION SERVICES

Emtec is a leading implementer of Packaged Applications. We help reduce costs by streamlining processes and providing application package expertise. We partner with our clients to provide subject matter expertise around the entire lifecycle of your application. Our specialty practices include, Microsoft Dynamics, Oracle Fusion, PeopleSoft, eBusiness Suite, Hyperion and OBIEE.

- ERP
- HCM
- CRM
- BI
- Planning
- Financial Management

To remain agile in today's volatile markets, organizations must find a better way to manage mission-critical management processes than spreadsheets and point solutions. Oracle's market-leading performance management applications enable organizations to achieve Business Excellence by integrating strategy, planning, and execution across management and operational systems.

ENTERPRISE APPLICATIONS

Enterprise Performance Management applications provide the information necessary for the individual to effectively analyze and manage today's business climate. Emtec's consultants have the business experience to understand your unique needs and the technology expertise to select, design and implement the optimal solution. Emtec offers these solutions:

- Hyperion Planning
- Hyperion Financial Management (HFM)
- Essbase
- Financial Data Quality Management (FDM)
- Data Relationship Management (DRM)
- Hyperion Reporting Tools

We can help your organization implement an EPM solution that delivers world class business processes, eliminates or automates low value processes, increases your analysis and reporting capabilities, reduces risk, eliminates information silos, and provides sustainable applications that can be maintained without the need for outside services. Our experience covers:

- Budgeting
- Capital Planning
- Forecasting
- Financial Reporting and Consolidation
- Compliance Reporting (IFRS, XBRL, SOX)
- Product Profitability
- Performance Scorecards

- Customer Profitability
- Activity Based Management Solutions
- Cost Analysis
- Industry Specific Analytics
