APPLICATIONS & TECHNOLOGY

PeopleSoft

PeopleSoft Enterprise is a family of best-in-class applications based on a Pure Internet Architecture designed for flexible configuration and open, multi-vendor integration. They provide end-to-end business solutions while focusing on best practices within a given industry.

Oracle Fusion Middleware for PeopleSoft

Pre-packaged middleware solutions that are pre-certified and hot-pluggable with PeopleSoft applications. Leverage Service Oriented Architecture (SOA) with your PeopleSoft application by service-enabling PeopleSoft Component Interfaces and Application Messages (using Integration Broker).

Oracle Business Intelligence (BI) Applications

Complete, pre-built BI solutions for PeopleSoft Enterprise customers that deliver intuitive, role-based intelligence for everyone in an organization and enable better decisions, actions and business processes. Based on best practices, these solutions enable organizations to gain greater insight and value from their PeopleSoft Enterprise application as well as a range of other data sources. Oracle BI applications are built on Oracle Business Intelligence Enterprise Edition.
