SERVICE OVERVIEW
Packaged Application Services
PeopleSoft Business Value Assessment

Emtec®

Business & Technology Empowered

ABOUT EMTEC®

Emtec is the right size provider of technology-empowered business solutions for world-class organizations. Our local offices, highly-skilled associates, and global delivery capabilities ensure the accessibility and scale to align your technology solutions with your business needs.

Emtec bridges the gap between boutique firms who lack cross-functional expertise and big firms with big price tags. Our collective focus is to continue to build clients for life: long-term enterprise relationships that deliver rapid, meaningful, and lasting business value.

PACKAGED APPLICATION SERVICES

Emtec is a leading implementer of Packaged Applications. We help reduce costs by streamlining processes and providing application package expertise. We partner with our clients to provide subject matter expertise around the entire lifecycle of your application. Our specialty practices are organized by vendor: Oracle, Microsoft and SalesForce.com. Areas of specialization include:

- Enterprise Resource Planning
- Financial Management
- Human Capital Management
- Enterprise Performance Management
- Customer Relationship Management
- Business Intelligence
- Technology

Emtec's PeopleSoft Business Value Assessment offers clients a discovery of their current state environment and an education in the latest functionality enhancements between product versions. Gain a better understanding of version changes and more importantly- how they relate to your specific business requirements.

GETTING THE MOST FROM YOUR PEOPLESOFT INVESTMENT?

Organizations who want to get the most out of their current PeopleSoft investment and those that are looking to upgrade can both benefit from Emtec's PeopleSoft Business Value Assessment. Here are some of the questions it can answer:

- I know what our business priorities are, how can I get a better understanding of the current functionality we already have invested in?

- Am I taking full advantage of my existing application and all the capabilities that it offers?

- What are the significant differences in versions and how essential is an upgrade based on my business needs?

- Is it possible to take advantage of new features/functions on my current release?

- Should we consider Oracle Cloud as part of our roadmap?

BUSINESS VALUE ASSESSMENT

During your assessment, the Emtec team partners with your business and IT SMEs to understand your current processes, business requirements, and issues. This helps to identify opportunities to leverage new functionality, improve existing business processes and retire customizations within the areas of Finance, Supply Chain, Human Capital Management, and Reporting. The outcomes from the assessment include:

- A review of your PeopleSoft environment and business processes to identify current issues and opportunities for improvement.

- Education and demonstration of key features in the latest PeopleSoft version.

- Identification of new application enhancements and business process redesign opportunities. For each opportunity identified, we assess business impact and implementation effort.

WHO SHOULD PARTICIPATE?

- Business and IT Leadership
- IT and Business SMEs
- Key End Users in HR, Finance, and Supply Chain
- Application Support (functional and technical)
